

User Manual for Ultra-Slim Samsung Galaxy Tab A7 10.4 (2020) Bluetooth Keyboard Case

Specifications

- Bluetooth distance: about 10m
- Materials: Polyurethane, ABS, Polycarbonate
- Battery: Lithium Polymer, 200mAh
- Charging time: 4-5 hours
- Working time: about 70 hours
- Standby time: about 100 days

Getting started guide

1. Buttons
 - On/Off button: Slide to power the keyboard on or off.
 - Connect button: It allows you to connect the keyboard to your tablet.
2. Indicator
 - Power indicator: It will turn light for 4 seconds after turning the keyboard on and it'll go off.
 - Bluetooth indicator: When in pairing mode, it'll blink. Once the keyboard is paired with your device, it'll stay on.
 - Caps lock: Switch between uppercase and lowercase text.
 - Charging indicator: It'll light up when the keyboard is charging via a USB port.

Charging

When the battery is low, the power indicator will start flashing. It means that you need to charge the Bluetooth keyboard.

Connect one end of the cable to the keyboard and the other end to the power adapter or PC USB interface. While charging, the charging indicator will light up and it will stay on until the battery is fully charged.

Connection operation steps

1. Power on the keyboard and press the Connect button. The Bluetooth indicator will start flashing and the Bluetooth keyboard will enter the pairing mode.
2. Unlock your tablet and go to the Settings, select Bluetooth and search for the keyboard.
3. Enter the pairing code and press Enter. After that, the Bluetooth keyboard will be paired with your device and you can start using it.
